Partnering with our community, Douglas provides education and experiences designed to foster life-long learners and prepare our students for success after high school. Over 70% of our students go on to two or four year colleges. Even more attend trade schools and other post-secondary education.

Science has long been a priority at Douglas. It has been one of the most experienced and developed departments. We are looking for a team player who can continue this rich tradition.

Endorsements in Chemistry/Physics needed. This is a full time science position. There are also opportunities to design electives and other courses to fit a teacher’s strengths.
